CYRILL KIEL MUSNGI

SOFTWARE ENGINEER

Mexico, Pampanga, Philippines | ckmusngi@gmail.com | +63 961 678 1306 | LinkedIn

PROFESSIONAL SUMMARY

Software Engineer with 6+ years of experience building web applications, backend services, and third-party integrations using Laravel, Node.js, and React. Experienced in integrating SaaS platforms such as Xero, HubSpot, Monday.com, and MYOB, as well as payment gateways including Stripe, D24, and Prontopaga, using REST APIs and webhooks. Familiar with cloud environments including AWS and GCP, with a focus on reliable, maintainable, and scalable software solutions.

TECHNICAL SKILLS

Backend Development: PHP (Laravel), Node.js (Express), Python (Django), REST APIs, Webhooks, WebSockets
Frontend Development: React.js, JavaScript (ES6+), jQuery, AJAX, Tailwind CSS
Databases: MySQL, PostgreSQL
Third-Party Integrations: Xero, HubSpot, Monday.com, MYOB, Google Maps API
Payment Integrations: Stripe, D24, Prontopaga, Dragontech88
Cloud & Infrastructure: AWS, Google Cloud Platform, Docker, Nginx, Git

EXPERIENCE

Web Developer (Remote) **Dec 2024 – Oct 2026**
Blue Wonders Consultancy Makati City, PH

- Integrate and maintain D24, Prontopaga, and Dragontech88 payment gateways for platforms in Mexico, Argentina, Chile, Colombia, Paraguay, and Ecuador.
- Implement GA4, Meta Conversions API, and TikTok conversion tracking for accurate campaign attribution.
- Maintain and extend the company's Back Office system, turning business requirements into shipped features.
- Use AI-assisted development tools for code generation, debugging, and refactoring to deliver features faster.

Full Stack Developer – Freelance (Remote) **Dec 2019 – Apr 2026**
Upstream Canberra, AU

- Owned full-stack projects end to end, from requirements and database design to deployment and support.
- Built two-way Monday.com, Xero, MYOB, and HubSpot integrations for multiple clients via REST APIs and webhooks.
- Automated customer, sales, and financial record sync, replacing manual data entry and reconciliation.
- Built data pipelines that detect sync errors early and keep data consistent across connected systems.

Associate Software Developer **Jan 2019 – Aug 2019**
Quantum Crowd Inc. (McVean Pacific Int'l Offshoring) Clark, Pampanga

- Built React.js application features and prototyped a Corda integration for a blockchain use case.
- Presented working prototypes to clients and iterated on UI/UX based on their feedback.
- Debugged and tested application features to find and fix issues early.

Programmer **Aug 2017 – May 2018**
Lagotronics Philippines Inc. Angeles, Pampanga

- Programmed Arduino-based animatronic motion sequences for museum exhibits and supported on-site installation.
- Developed the on-screen user interfaces for each animatronic machine using C#.

PROJECTS

Automated Distance-Based Pricing System | Laravel, React.js, Google Maps API, GCP
Built a GCP-hosted pricing engine that automates transport fares from real-time routing distance.

Client Portal – Custom Quoter System | Laravel, AJAX, jQuery, Tailwind CSS, Laravel Broadcasting
Built a secure portal for custom quoting, job tracking, and document access, with real-time chat between clients and staff to improve workflow transparency.

EDUCATION

Bachelor of Science in Information Technology **2013 – 2017**
University of the Assumption
