CYRILL KIEL MUSNGI

SOFTWARE & AI ENGINEER

ckmusngi@gmail.com • +639616781306 • Mexico, Philippines • linkedin.com/in/ckmusngi

PROFESSIONAL SUMMARY

Software Engineer with 8+ years of experience building dependable backend systems and integrations for FinTech and SaaS platforms across Australia and Latin America, now expanding into AI engineering. Recently began building LLM-powered applications, bringing years of production experience in APIs, data, and cloud deployment to make AI features reliable for real users. Comfortable owning a product end to end, from design to deployment and long-term support, with a focus on practical, maintainable architecture and close collaboration with remote teams.

SKILLS

- PHP (Laravel)
- React.js
- MySQL / PostgreSQL
- AWS (EC2, S3, RDS, SQS) / GCP
- Local LLMs (Ollama)
- Node.js (Express)
- REST APIs
- SaaS Integration
- Docker
- RAG (Embeddings, Vector Database, LangChain)
- Python (Django & FastAPI)
- TypeScript / JavaScript
- FinTech Integration
- Git
- Prompt Engineering

WORK EXPERIENCE

Web Developer - Remote Dec 2024 – Nov 2026
Blue Wonders Consultancy · Makati City

- Integrated and maintained 3 payment gateways (D24, Prontopaga, Dragontech88) for iGaming platforms across 6 Latin American countries, serving 800,000+ registered players and 178,000+ depositing players on the largest platform alone.
- Implemented server-side conversion tracking for 3 ad platforms (GA4 Measurement Protocol, Meta Conversions API, TikTok Events API), routing registration, deposit, and first-time deposit events through a server-side Google Tag Manager container for accurate campaign attribution.
- Maintained and extended the Back Office system used to monitor players, KYC verification, deposits, withdrawals, promotions, and game activity across 16 game providers, turning business requirements into production features.
- Used AI-assisted development tools to help migrate the platform's PHP codebase to Java and to speed up daily work such as code generation, debugging, and refactoring.

Full Stack Developer - Freelance (Remote) Dec 2019 – Apr 2026
Upstream · Canberra Australia

- Delivered full-stack projects end to end over 6+ years, owning requirements, database design, development, cloud deployment, and long-term support.
- Built two-way integrations across 4 business platforms (Monday.com, Xero, MYOB, HubSpot) using REST APIs and webhooks, connecting operations, CRM, and accounting systems for multiple clients.
- Designed and maintained a Monday.com and Xero integration adopted by 20+ companies, syncing 100+ invoices daily with higher month-end peaks, and eliminating manual data entry and reconciliation.
- Built data pipelines with early error detection that kept customer, sales, and financial records consistent across connected systems, catching sync issues before they reached client accounts.

Associate Software Developer Jan 2019 – Aug 2019
Quantum Crowd Inc. (McVean Pacific Int'l Offshoring) · Clark, Pampanga

- Built React.js features and prototyped a Corda blockchain integration for a client use case.
- Delivered working prototypes to clients and refined the UI/UX based on their feedback.
- Tested and debugged features throughout development, catching issues before they reached client demos.

Programmer Aug 2017 – Apr 2018
Lagotronics Philippines Inc. · Angeles, Pampanga

- Programmed Arduino animatronic motion sequences for museum exhibits and on-site installation.
- Built C# operator interfaces to control and monitor each animatronic machine.
- Collaborated with engineers to turn exhibit requirements into working hardware and software.

PROJECTS

Halo - Desktop AI Assistant
Personal Project - Node.js, Electron, Ollama

- Building a real-time desktop overlay assistant with Node.js and Electron that runs on a local LLM.
- Built a retrieval-augmented generation (RAG) pipeline that embeds user-attached documents (PDF, DOCX, Markdown, TXT) into a vector database and retrieves the most relevant context for each request.

Free Resume - Resume Builder
Personal Project - Reactjs & Supabase
free-resume.online

- Launched a free, no-paywall resume builder where anyone can create and download a professional resume.
- Built with React and Supabase, and handle ongoing updates, bug fixes, and production support on a custom domain.

EDUCATION

Bachelor of Science in Information Technology Jun 2013 – Jun 2017
University of the Assumption · San Fernando, Pampanga
